Quality, Health, Safety & Environment Management with HX-Factor

GEA Heat Exchangers provides comprehensive coverage for all kinds of heat exchangers in numerous markets and applications. Not only having probably the largest portfolio worldwide, what makes GEA Heat Exchangers unique and a partner of choice is the HX-Factor: customized, reliable and sustainable solutions conforming to today's requirements.

In Quality, Health, Safety and Environment (QHSE) we are committed to excellence and to:

- Meeting or exceeding the requirements and expectations of our customers;
- Enhancing the well-being of our employees;
- Identifying, analyzing and effectively managing HSE risks arising from our business activities;
- Complying with all legal requirements, applicable codes and national standards;
- Creating an accident- and incident-free workspace and preventing occupational illnesses;
- Preventing environmental pollution and reducing energy consumption, waste generation and emissions;
- Taking precautions to prevent major accidents and managing emergencies, incidents and impacts appropriately;
- Assigning clear roles and responsibilities and conducting training to ensure the necessary competence;
- Providing and maintaining appropriate systems of technology, work, tools and procedures that support the fulfillment of our objectives;
- Continually monitoring and improving our systems, performance and impact by reviewing our objectives and targets and implementing appropriate corrective and preventive sustainable actions.

Each of our entities - comprising Production, Engineering and Sales & Service functions - is responsible for setting up QHSE objectives and targets as well as developing and implementing sustainable programs to achieve them.

GEA Heat Exchangers units will work together to ensure the necessary resources for fulfilling this policy are available.

This policy shall be communicated to all individuals working for or on behalf of GEA Heat Exchangers and all of them shall be actively involved in applying this policy.
